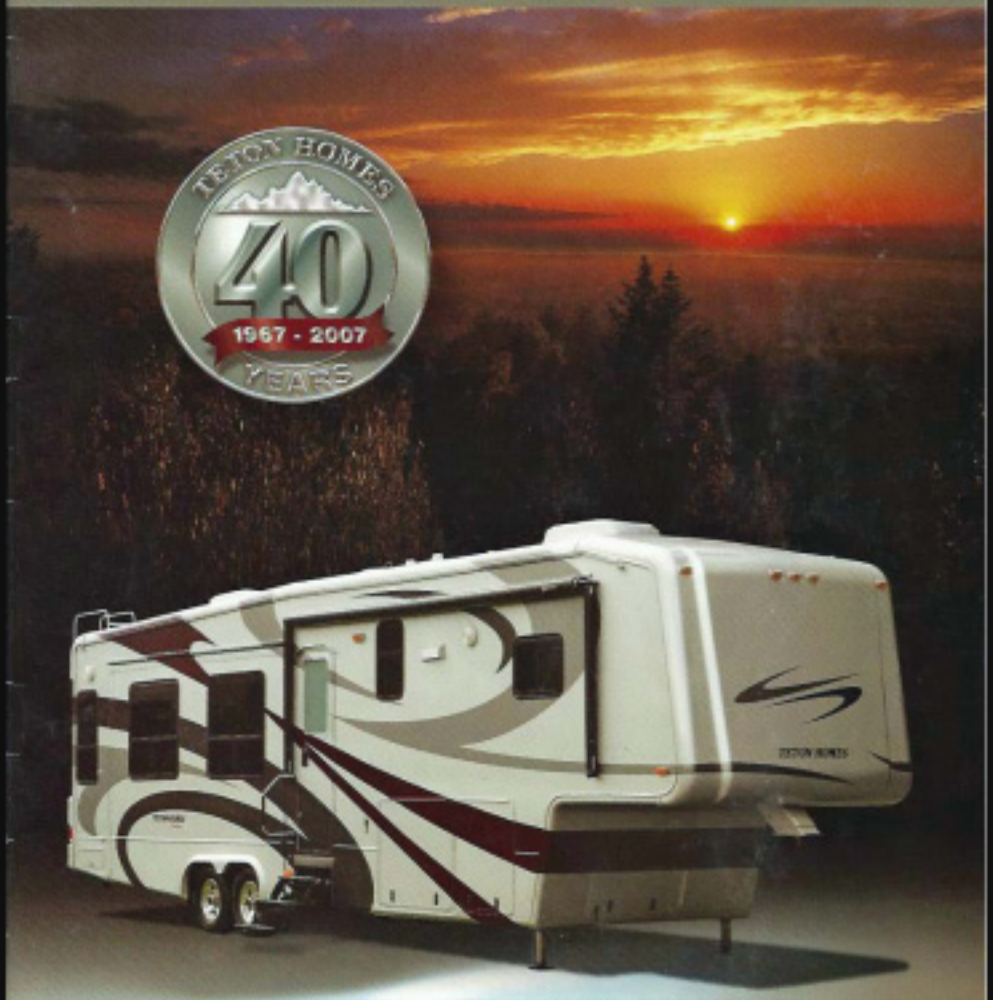
TETON HOMES®

5TH WHEELS – 40TH YEAR



AMERICA'S NUMBER ONE FULL TIME RV

Royal
. . . OUTSTANDING ELEGANCE

This is the fifth wheel of your dreams! Its outstanding collection of exclusive Teton amenities provides the style and luxury you're accustomed to. . . and then some. This Royal Aspen model features our Venetian decor package – one of three great new looks.

The Royal Aspen offers a beautiful rear entertainment center with a standard pop-up 45" Sharp Aquos® LCD HD TV and a cozy optional electric fireplace and and you'll find there's not a bad seat in the house for watching your favorite programs.

In addition to concealing our 45" Sharp Aquos® LCD HD TV, the Aspen rear entertainment center provides storage cabinets with Baroque glass doors and an optional fireplace which includes the porcelain tile floor hearth. When it's time to watch television, simply press a button and the TV rises up to viewing position. When you're finished watching, the TV lowers back behind the fireplace.

60" Aspen Royal XTX LTD features vertical door detailing, wood veneer with cherry stain and optional granite counter tops

Teton's convenient heated exterior water control center with hot and cold running water, fold-away chopper and pull-out hose rack.

Operate your large optional awning with a Weather Pro remote control. An automatic sensor closes the awning in gusty winds.

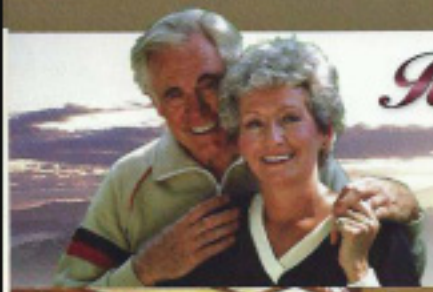
60 Balance XTX LTD in Champagne Beige with graphics in Black Gold. Dark Cherry and Mocha. Interior bedroom is 6'7" and is 60" storage compartment is tucked under the bedroom suite

Juno 40" tall luggage doors

A 17" living/dining slideout holds a freestanding dinette with an expanding leaf and two recliners in optional ultra leather. Directly across the room is a comfortable hide-a-bed sofa and an optional coffee table. Notice the flawless fit and finish on the cabinetry, windows and slideout rims. No other RV offers more luxuries or greater comfort than Teton Royal.

Just inside the entry door (next models), a new mirrored closet is ideal for jackets, hats and more. Removable shelves let you arrange it your way.

This 23" x 34" sculptured area rug (optional in Expressive) matches the Teton decor and is a beautiful addition at the entryway and in front of the kitchen sink.



Royal... FUNCTIONAL LUXURY

Big, beautiful Royal kitchens are designed for maximum function. Standard amenities include generous solid surface countertops, an eye-level microwave with turntable, sealed-burner range with piezo ignition, glass front oven door, a large refrigerator, and a stainless steel sink with brushed nickel faucet having a pullout sprayer head.

40' Aspen Royal 373 LTD features Venetian decor including maple wood with cherry stain and optional granite countertops.

Kitchen storage (at left) is plentiful thanks to solid wood cabinetry, an optional island and several drawers. Tetons extra large pantries (below) have adjustable pull out drawers for optimal storage and easy access.

Function and luxury come in many different forms including (above, left to right) Royal's handy in-island wastebasket; fluted columns and carved corbel blocks on solid wood slideout trim; and a stereo AM/FM receiver with a five-disk DVD/CD sound system and five ceiling-mounted 5.1 speakers.

Optional built-in wine cooler in the living room end of the island base cabinet.

The comfortable slideout queen bed with an inner-corner innerspring mattress is accented by a wood with fabric headboard with mirrored cabinets/shelving and decor-matched bedspread, duvet, shams, and throw pillows.

Experience ...FLOOR PLANS YOUR WAY

Rear Living Room

Rear Dining Room

The Liberty Experience 37H features Caperture decor including natural maple wood and wing-tip, wood and fabric upholstery

Rear Lounge

Three In One Floor Plans

Why live with a floor plan that cannot be changed when you can rearrange your furniture to suit your whims? With Tiffin's exclusive **Three In One Floor Plans**, you can have a rear living room (left top), a rear dining room (right top), or a rear lounge (lower left) whenever you're ready for a change.

This Experience model features Tiffin's 42" diameter table with expandable leaf and four plush dining chairs with queen Ann legs. Swivel, glider recliners have optional ultra leather. Window treatments are highlighted by coordinated bibs.

Check out the abundant storage in this fabulous kitchen (below) and the flip up counter top (right side of photo) that creates extra work space.

The optional 37" Sharp Aquos® HD LCD TV opens like a door to display the perfect storage niche for DVDs.

Eight drawers and two closets provide extraordinary storage with our shirt closets option. There's even storage behind the optional 26" Sharp Aquos® HD LCD TV!

Finely detailed dresser faces, mirrored closets, shelving and a side window make this queen bed dressing a beauty.

Bedroom and living room slideout trim is finely detailed for extra style and coziness.

Experience . . . ALL SEASON COMFORT

If you love winter, you'll love Teton's optional Arctic insulation package. It gives you complete four-season comfort in temperatures that range from single to triple digits. Included are self-regulating heat tapes on in-frame plumbing lines and dump valves, dual-power thermostatically controlled heat pads on the bottom of in-frame tanks and insulated drain lines.

36' Liberty Experience 3T3 features Vintage Rose decor including standard oak with optional wood and fabric valances

In Dometic's comprehensive test chamber, Teton's furnace heat cycling, ensuring continuous and comfortable inside temperatures – even in below zero outside temperatures. Tetons are livable 365 days a year. No wonder they're America's first choice in full time RVs.

Teton offers the (optional) inflatable Hide-A-Way™ sofa the newest innovation in sofa sorting, storage and sleeping system. A 115 volt pump quickly inflates the queen size air mattress in less than a minute. When the bed is no longer needed it deflates in less than a minute. Lift the cushions to reveal a generous hidden storage compartment.

Just beyond this queen size bed is a large lavatory and a spacious 38" x 38" shower with glass door. A separate toilet room allows two people to use bathroom facilities at the same time.

Nothing says 'welcome' like this cozy optional fireplace

Teton's 60" tall luggage doors conceal the industry largest storage compartments.

Model – 33' XT2 Experience Sunrise with Dark Cherry, Dark Tundra, Khaki Metallic and Taupe Mist graphics.

36' Experience Liberty with optional Silver Mist full body color and painted graphics (also pictured on the cover).

36' Experience Liberty XTS features Sun Valley decor including honey maple wood with upgraded wood and fabric valances.

Every Teton has at least three slideouts; some models have four. All feature a LevelOne Suite – Teton's luxury master bedroom and bath on the same level with 6'2" of ceiling height. Living area height is 8' plus. The result is maximum space for exceptional flexibility. Below, one of many drawers in Experience bedrooms is actually a pullout hamper.

With a style of it's own the Experience has many of the same amenities as a Royal. Entertain in style or dine alone in this stunning living/dining area (above). Standards include solid wood cabinet fronts, designer window treatments in a choice of styles, a ceiling fan, trackless patterned carpeting, high back swivel glider recliners and Baroque glass doors in display cabinets.

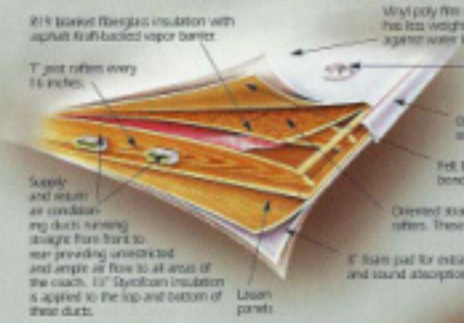
Choose the window treatment that suits your style! Left to right: fabric valance and trim, fabric with wood side trim and valance; solid wood valance and fluted sides. All have pleated shades.

Use the center of our wardrobe wall (left) as a vanity or a computer desk. Queen bed platforms (above) lift on gas assist struts to reveal a large underbed storage area. King beds are optional on several models.

Hydraulic rear stabilizer jacks and a hydraulic no-pin front jack system combine with a hand-held pendant control to level your Teton easily and accurately in just minutes. It's a Teton exclusive!

Built to Withstand the Elements 365 Days a Year

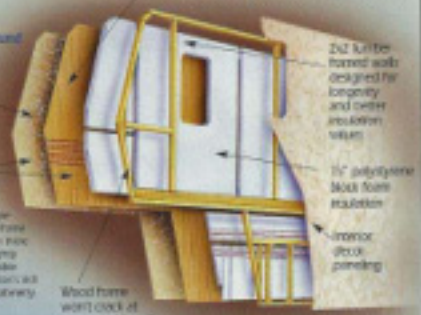
Teton's® T-joint roof system is one of the lightest, strongest and best insulated in the industry with a composite R value of 25.



Teton's® central air conditioning two-duct system has a 70% sound reduction from most roof-ducted air-conditioning systems.

High gloss fiberglass for an exceptional exterior look and weathering quality.

Fiberglass and lauan panels are manufactured to form a one-piece exterior skin by laying the panels into the wet fiberglass and vacu-bonding them together. This one-piece composite is then applied to our vacu-bonding process of the wall frame. This means added structural integrity and durability to the customer.



Downsized drawer assemblies are crafted to last and glide easily on steel epoxy frame and double-roller drawer guides. Available in the Royal only.

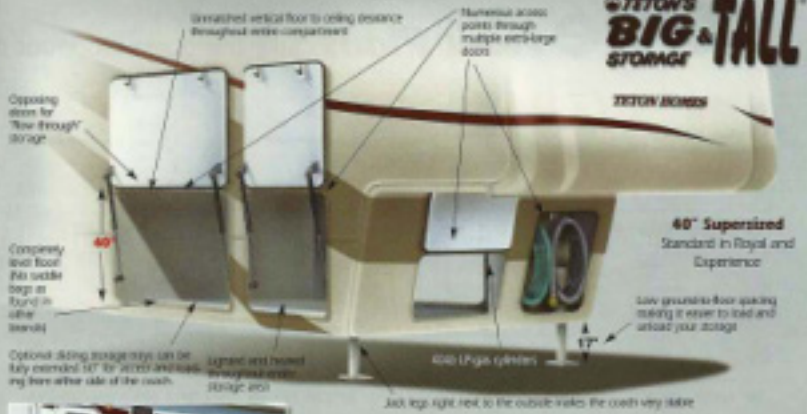
European-style hidden face-frame hinges mean there are no unsightly hinges or visible screws in Teton's 4x4 hardwood cabinetry.

Our patented chassis design allows for enormous storage in our BIG & TALL® space, once again setting the industry standard in storage.

Our vacu-bonded sidewalls are lighter and stronger than walls with "hand laid-up" exterior glass, and feature an overall insulating value of R10.

Teton's engineering team developed a chassis design so unique it's protected by three U.S. patents*. This exclusive design accommodates Teton's Big & Tall® Storage compartments beneath the raised bathroom and bedroom floors. Without sacrificing strength or structure, the patented design allows for a light weight yet rigid superstructure of steel and wood components. No other RV manufacturer can offer this special Teton design!

*U.S. PATENT NUMBERS 6,343,833, 6,582,894, and 6,860,545.



18 gal., 14 gal. and 10 gal. storage bins shown

The Ultimate in RV Storage

You won't believe the amount of space our Big and Tall Storage® system provides! Lower ground-to-floor clearance, access points through multiple doors, a level floor and opposing doors for flow-through storage makes your Teton incredibly easy to load and unload. Check out the comparison of our storage versus traditional RV storage shown at the bottom of the page and consider all the gear we packed into just ONE Teton® model (at left); about twice as much as would fit in other brands. Want the ultimate in easy? Ask about our optional sliding tray that can be fully extended for access and loading from either side of the coach.

Full-width slider panels for easier access to electrical panels

Three In One Floor Plans

Take the guess work out of choosing a floor plan by rearranging your furniture to fit your view.

Teton's Royal and Experience.....

Features	Customer Value	Teton	Others
CONSTRUCTION			
Convection attic ventilation system	Eliminates condensation, deterioration and helps maintain even temperatures.	☑	☐
Self-healed vinyl poly film roof membrane	12 year manufacturers warranty against leaks and won't chalk, fade, wrinkle or discolor like the EPDM rubber roof.	☑	☐
Extra large opposing slide-outs (see floor plans)	Creates spacious great-room designs. Raising slide-outs leave flush floors.	☑	☐
Rear bay window available in most floor plans	Offers more light, makes the room feel larger and offers a panoramic view. The best and still the best. Available with an optional full width rear bay window awning.	☑	☐
All kitchen slide-outs designed with the hidden slide-out residential look	The kitchens are built into the slide-outs, leaving more floor space, giving you a residential look.	☑	☐
Nationwide-hardened tongued wood framed sidewall construction	Better insulation value, 30% stronger, more solid, lighter and more moisture proof than other framed walls.	☑	☐
All-weather design	Usable 365 days a year, great for fall tours.	☑	☐
All holding and water tanks are in a heated space artic package (available for sub zero weather)	Helps protect against freeze-up. Dry free tanks.	☑	☐
All models are 102" wide body	Allows maximum spacious floor plan designs.	☑	☐
Hydraulic front jack legs located at outside perimeter	Fast acting, rugged system provides maximum stability; 10,000-lb total travel capacity.	☑	☐
4 point hydraulic leveling system with hand held pendant control	Quick, convenient and reliable to level your coach and for leveling up in your coach.	☑	☐
No jac jack leg system	No more kneeling down or bending over to unpin and repin your jack legs.	☑	☐
Hydraulic slide-out mechanisms with dual cylinders on the RL slideouts w/independent room control	Faster, quieter, smoother with a manual override and a much better seal than brands with single cylinders.	☑	☐
Kitchen slide-out floors are insulated with a high density foam insulation.	Makes it easier to heat and cool and eliminates condensation problems.	☑	☐
EXTERIOR			
Dual-pane insulated window with UV28 tint (dual pane optional on Experience)	Lets down on when water and sides and sun rays. Keeps your home cooler in summer, warmer in winter and you don't have to store your storm windows. No exposed screws for better appearance.	☑	☐
LED clearance lights	Long lasting, 20,000 hours of service, brighter, uses less electricity	☑	☐
Gel-coated roof save caps protect the roof membrane in the gel-coated siding	Easy maintenance, smooth sleek looking continuous molded component parts resist scrapes from branches and has no windows, bubbles or flaws.	☑	☐
Entry door gel-coated 30" entry door with aluminum framed overlayed window with entry case lock	Easier, color secure, finish matches siding and won't fade or discolor, flush mirror strip design with no exposed exterior screws, easy to open and close and a weather tight when closed.	☑	☐
Heavy duty gel-coated baggage doors with gas shocks and adjustable lower latches.	Easier, color secure, finish matches siding and won't fade or discolor.	☑	☐
Wide track chassis	Stronger, lighter with superior handling characteristics.	☑	☐
3-5/8" x 13-3/4" forward self adjusting brakes with D.C lube bearing	Better stopping performance, safer and requires less maintenance.	☑	☐
Tetons® Big & Tall Storage® offers full width, full height, flush floor, drive through, extra large basement storage with overhead doors	Largest, tallest unobstructed storage capacities available. No plumbing, wiring or heat ducts in the way. Full height 48" tall baggage doors.	☑	☐
Large exterior exterior storage compartment up front for power cord and gasoline hose	Easy and handy storage for those bulky garden hoses and power cord plus other outdoor tools and items.	☑	☐
Spacious utilities connection compartment in a water proof gel coated fiberglass, lighted compartment with a hinged trap door	Complete with a wash-up hand held shower wand with hot and cold water, soap dispenser and paper towel holder, and has convenient quick connections for telephone cable, satellite dish and even a high speed data port.	☑	☐
Detachable rear roof access ladder	Additional safety and security, does not obscure the panoramic view.	☑	☐
All graphics are painted – no vinyl graphics	Easier to clean, doesn't fade, won't peel, doesn't crack or yellow.	☑	☐
Hickory lounge leg easy entry steps triple bolting	2" deeper step tread makes entry and exit easier and safer	☑	☐

.....Standard Features & Customer Comparison Check List

Features	Customer Value	Teton	Others
INTERIOR			
6' 1" headroom in the bathroom and bedroom in Tetons's original LevelOne Suite	Transforms the area into a spacious master suite all on one level	☑	☐
One-piece molded bathroom sink basin and counter top with a 1/2" backsplash and Designer kitchen counter tops with extra deep basins color coordinated with cabinetry wood color	Fabricrete® solid-surface countertops are seamless, elegant, durable, lightweight, flexible and easily maintained. The unique cross-link lamination reduces cracks, crazing and chips. The curved double apse edges add class and elegance	☑	☐
Designer sky/night shades with black-out features (except over blind in kitchen and bath)	Enhances the spacious interior while offering complete privacy	☑	☐
Round dining table with leaf	Adds residential appeal and seating for 6.	☑	☐
Dimmer switch on wall lights	Great for mood lighting and the ambiance	☑	☐
Dual ducted roof mounted central air conditioning	With both the supply air ducted and the return air also ducted in the ceiling the air conditioners run quieter and more efficient. More uniform temperatures are achieved with less stagnation.	☑	☐
12 gal gas/electric water heater	More hot water for longer showers	☑	☐
Residential dual swivel rocker recliners	Maximum residential comfort and seating flexibility meets individual needs and lifestyle of virtually every filter.	☑	☐
Two attractive designer interiors to choose from with 23 floor plan variations	Something to please even the most discriminating buyer.	☑	☐
One-piece residential radius fiberglass corner tub and shower with full height glass enclosure	Elegant residential appearance, spacious open design with lots of elbow room, easy graphics and easy maintenance.	☑	☐
All kitchens (except Phoenix) designed for optional dishwasher	For extra home-style convenience.	☑	☐
Drawer guides are heavy duty ball bearing full extension	Drawers operate smoothly, easily and can support 100lbs. per drawer	☑	☐
All pantries have adjustable pullout drawers	Provides easy access storage. (Sunrise has fixed drawers)	☑	☐
Kitchens have as many as 20 drawers or more	Lots of storage space for pots, pans and kitchen utensils.	☑	☐
Residential vinyl floor tile in kitchen, entry and toilet room.	Great appearance, easy to clean and maintain, long lasting	☑	☐
Architectural hand crafted cabinets and woodwork with crown and dentil moldings, and engravings available in 4 wood choices	Designed for the ultimate in storage offering long-lasting beauty and elegant styling. Built with the finest select Northern Red Oak or Hard White Maple for uniform color.	☑	☐
All exterior residential passage doors feature solid hardwood stained 6-panel design	Elegant and durable enough for years of full-time use.	☑	☐
Three to five floor plans offered in four models	The ability to rearrange your furniture to fit your view.	☑	☐
Kitchen and pantry drawers are a full 24" deep	Allows for much more storage than other brands.	☑	☐
Tetons Homes® – Specializing exclusively in luxury class 250 wheels for 40 years	When you specialize in one thing you naturally do it better.	☑	☐

Teton® the Number One Pick of the Stars

Teton Homes are the top choice of Movie Movers Transportation Equipment, Inc., the most respected designer and supplier of luxury equipment to the movie industry. While filming on location, top actors insist on Teton as their home away from home because our exceptional attention to detail and luxury appointments meet their exacting requirements.

Teton® Ranked Among Industry's Best

With all Teton's standard amenities, superior fit and finish and luxurious options, its no wonder our units are the top choice of America's full-time RVers. Over the years, Teton has also been a consistant top choice among RV dealers. We've won numerous awards and top ratings in such categories as competitive product, innovative product design, and prompt service to managers and service technicians.

"Teton Homes" warrants its Ultimate Luxury Experience, a unique blend of wood and steel, polyurethane insulation for five years on Royal models, and three years on Experience models. The Ultimate Luxury includes the chassis, the sidewalls, and roof structure. It covers the entire life of the original buyer, any part of the Ultimate Luxury that is not found to be properly constructed or finally workmanship by Teton Homes® is will be replaced without charge for either parts or labor if the proper warranty claim procedures are followed. All other items are covered under the standard Teton® one-year limited filter only, unless otherwise indicated. See your owner's manual and warranty booklet for further details.

Dometic® provides a three-year limited manufacturer's warranty on their product. Click on the notice Dometic® refrigerator and air conditioners.

Suburban provides a three-year limited warranty on the sale of the water heater.

The electrical installation service is 12-year limited manufacturer's warranty Norma® provides a two-year limited warranty on their "Ultraflare" furnaces.

These warranties are subject to the individual interpretations of the specific suppliers involved, and are subject to their rules and guidelines regarding their products. Teton® provides the warranty of the Ultimate Luxury itself.

"Our new Teton Experience is truly a quality full time trailer. We have owned many other brands in the past 36 years and none can compare. Our Experience has the best features, cabinetry, all weather comfort and ease of towing. We're proud to say our home is a Teton."

John & Sharon Burk
Fresno, CA

"After two years of researching the industry, we decided to build a Teton. We're full timers with a family of four and its just like being at home wherever you go. No doubt about it, Teton is America's #1 RV."

Truman and Lore Pearson
Hocowinity, NC

Wood Versus Aluminum... Which is Better?

The wood versus aluminum argument is almost as old as the RV industry. Which type of framing is best depends entirely on how you use your RV. At Teton Homes®, we specialize in luxury fifth wheels designed with the full-time RVer in mind. Let us examine some of the advantages of wood framed structures.

TEMPERATURE CONTROL

In full-time RVing, temperatures can vary greatly from extreme hot to extreme cold. **Wood has insulation properties** that help maintain a constant and comfortable interior temperature, no matter what the weather. **Aluminum conducts and transfers hot and cold** from outside to inside, making heating and cooling systems work harder with less efficiency.

CONDENSATION

Rapid temperature changes and extreme weather where interior and exterior temperatures vary greatly cause **condensation in aluminum framing.** Because wood maintains temperature far better than aluminum, **there is no condensation with wood framing.**

WEIGHT

Overall weight is important. In small RVs, aluminum framing is lighter than wood. Large, complex fifth wheels require intensive framing and support to maintain overall integrity. That's why, in units over 32 feet in length, **wood and aluminum framing weigh virtually the same.**

DRY ROT

Early manufacturing methods required many seams in RV exteriors, allowing water to get into framing and cause dry rot. Today's construction methods, including lamination, smooth siding and single piece impermeable vinyl roof, virtually **eliminate the possibility of water entering wood framing and have made dry rot obsolete.**

STRUCTURAL FATIGUE

Extended road travel can cause fatigue of overall structure, particularly exterior walls. When combined with today's wall vacuum bonding techniques, wood and metal framing offer equal overall strength. However, **metal framing can develop costly and dangerous stress cracks** at welds and can transfer stress from one joint to another, causing failure. This cannot happen with wood framing.

INSULATION

All RVs are framed with wood, aluminum or steel and insulated with either block foam or blanket fiberglass. **Wood framing enhances insulation properties** because it does not transfer temperatures like metal.

In reviewing the list above it is clear that wood framing is the best choice for our products.

For more information see page 10 for actual construction details...

Friendships that Last a Lifetime

As a Teton® owner, you're invited to join Teton® Club International (TCI), a club designed exclusively for owners of our products. Members have numerous opportunities to enjoy the camaraderie of others who share a love of RVing and appreciation for the quality and beauty of Teton Homes®.

TCI offers such organized activities as an annual National Rally and numerous regional rallies which features fabulous food, exciting excursions and educational seminars by Teton Homes® service staff and vendors of the company's RV components. You'll also receive the TCI newsletter filled with helpful tips and information about our products, as well as news concerning upcoming trips and rallies.

TETON HOMES®

Teton® – The Name Means Excellence

In 1967, Teton Homes® began building Teton travel trailers. Although the original units didn't look like today's Tetons, they established a firm foundation for the business principles that would take us through 40 years of continuing success.

Over the years, we listened when customers told us they wanted flexibility, storage, luxury, efficiency and reliability so they could make Teton RVs their full-time home. Through nearly four decades, we refined and improved our products into the magnificent homes they are today. We never scrimped on comfort or sacrificed quality. Instead, we satisfied our customers. In return, America's full time RVers have made us their number one choice. When it's time to make your dreams come true, choose the only RV whose name is synonymous with excellence. After all, we don't build just any luxury recreational vehicle; we build Tetons.

TETON HOMES 40 1967 - 2007 YEARS

Specializing **exclusively** in luxury class fifth wheels for 40 years.

The Teton Difference

Teton's chassis design is so unique it's protected by three U.S. patents*, the most recent one of which was issued on March 1, 2005. This exclusive chassis design allows for Teton's phenomenal Big & Tall Storage. Every 2006 Teton has an incredible 40' tall exterior storage compartment! No other RV manufacturer can use this patented Teton design. That is one of many reasons we're the first choice of full timers.

*U.S. PATENT NUMBERS 6,343,830, 6,502,894, and 6,860,545.

Teton Homes® corporate offices and production facilities with 130,000 sq. ft. under roof located just west of Casper, Wyoming.
