

This Teton Fifth Wheel front bedroom features a 6' 4" headroom height while maintaining a low exterior profile. There's no need to stoop while making a bed.

A fold-up ironing board is optional in most fifth wheels for added convenience.

Large wardrobes with plenty of drawer space are standard in all models. Most fifth wheel units feature sliding mirrored wardrobe doors with shelving for linens and towels. All wardrobes have aromatic cedar floors for a smell of freshness.

Spacious front bedrooms in the fifth wheel units feature a 60" x 80" queen size bed; brass swing-arm pin-up lights, and color-coordinated bedspreads, curtains and a pillow roll. The above bedroom is decorated in peach.
