

All Teton 5th wheel front bedrooms feature 6'4" of headroom while still maintaining a low exterior profile. There's no need to stoop over in a Teton bedroom.

Nothing can compare to the spaciousness of a Teton bedroom. 60"x80" queen beds, brass swing-arm lights and color-coordinated bedspreads, pillows and curtains are all standard.

A fold-up ironing board is optional in most 5th wheels for added convenience.

The brightly colored bathroom is accented with a color-coordinated lavatory, base cabinet and medicine cabinet and is well-lit by 3-bulb vanity lights. Notice the polished brass pulls, towel ring, faucet and inlays that add that Teton "Touch of Class".
