

The beauty of the Old West comes shining through with a Teton Homes truck and trailer combination, which is fast becoming the next Western Legend. The 3/4 ton Ford F-250 Super Cab has an EFI 460 engine and a 4:10 rear axle ratio and is custom painted to compliment your trailer.

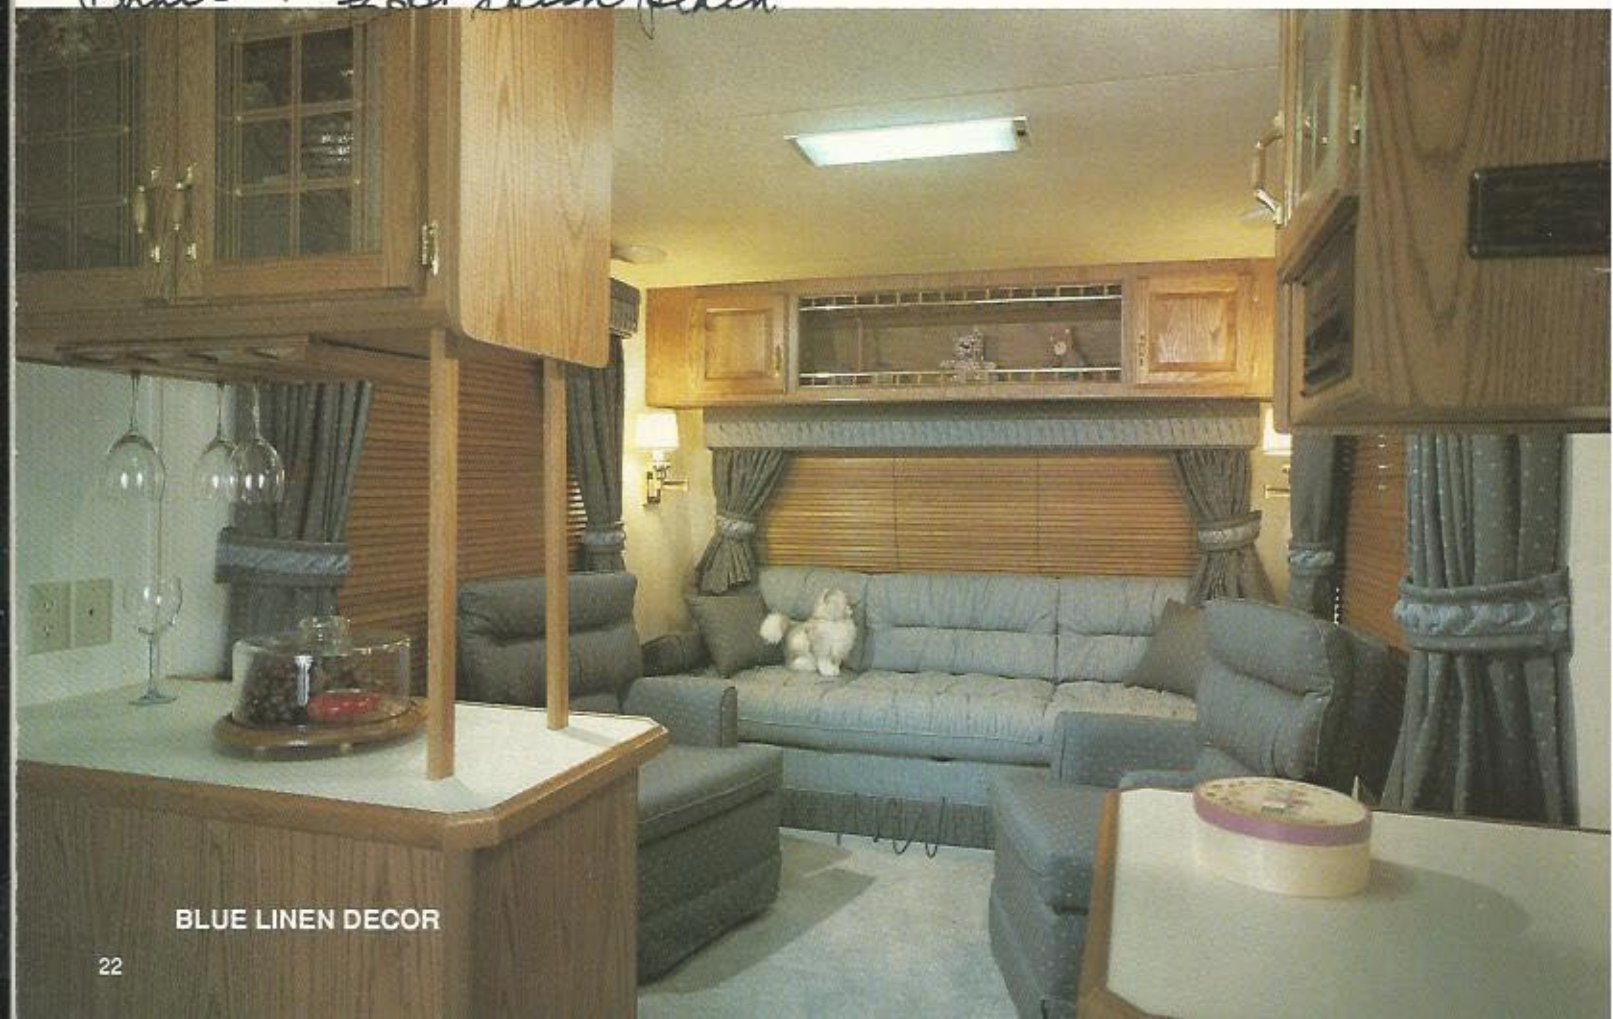

Teton Homes is the first RV manufacturer to give you a **FOUR-LEVEL FRONT LIVING ROOM MODEL WITH TWO SLIDE OUTS.**

The Williamsburg also has loads of basement storage for all your storage needs, plus an unusually large living room with 6'2" ceiling height throughout. The solid oak doors, etched glass and foam padded wine glass rack are standard on every Teton we build.

*drapes - Plain figured
couch - solid
chair - Plain
footstool - solid plain*

Teton offers the front living room floorplan in two models, the 37' Hollywood and the 40' Williamsburg (shown here).
