Teton introduces a brand-new innovation to the RV industry, a foldable step capable of supporting over 400 pounds. This step comes in either an 8" exterior version or the 12" interior model, shown here. And, it folds to 3" wide, so you can store it just about anywhere.

It doesn't matter if you're boondocking in the Rockies or hooked up in Central Park, your favorite TV programs are always close at hand with the A&E Travel Sat satellite dish.

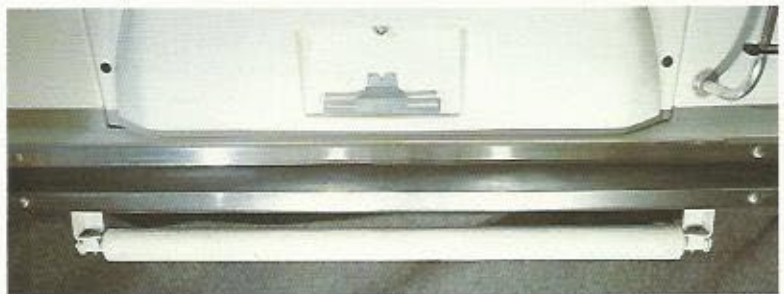

And for even greater convenience in leveling your coach, how about this optional A&E Trailer Master leveling system. It's totally automatic, and when the lights go off, you're level.

A handy intercom system is another option that lets you keep in touch with the driver when you're on the road.

To help chill your drinks, how about this optional black glass front ice-maker. Don't worry if company comes over, this handy item can make over 1,000 cubes a day.

This 62" wide skid roller is a Teton exclusive — designed and built right at the factory. This heavy duty roller will end any worries you might have about damaging the underbelly of your trailer. Built Wyoming tough.

The entertainment center is available in rear living room models only, and adds another Teton "Touch of Class". Also pictured are the 13" color TV, VCR and 120-volt upgraded stereo system.
