

50 Amp power cords are STANDARD in the 1990 models, while Teton has added a fiberglass lined power cord box for longer life and durability.

Powerful 105 Amp Group 27 batteries with a KWIKEE battery tray for easy access.

Teton's 1990 hide-a-bed is something special with a 7" thick innerspring.

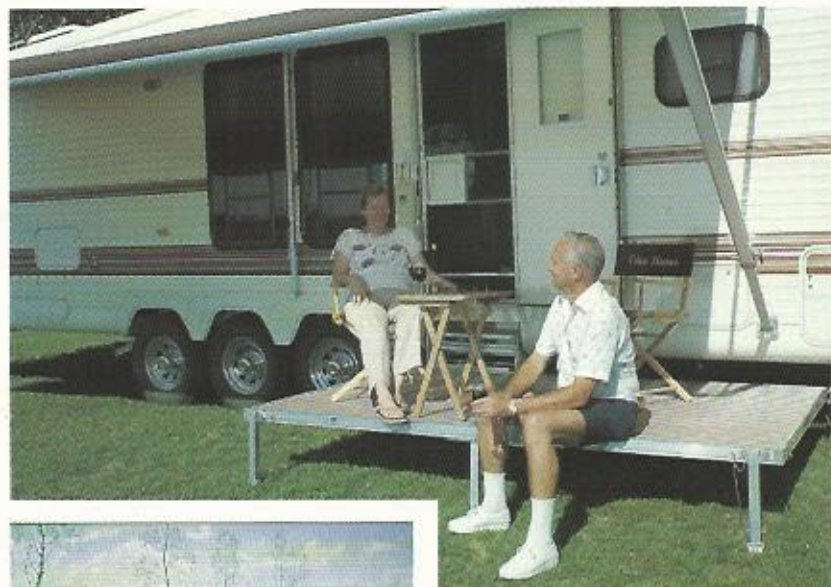

Teton builds its own 62" wide skid roller right at their factory, providing your underbelly with unheard of protection. Built Wyoming tough.

Central air conditioning, ozite ceiling board and fluorescent lights are STANDARD in the 1990 Tetons, while 110-volt ceiling fans are a popular option.

Add to the elegance with leaded beveled glass doors.

Kenmore washers and dryers are also available for larger 5th wheel and travel trailer models.

An A&E 9000 awning provides the shade while you're resting in special Teton director's chairs and drinking out of special 23rd anniversary edition glasses. All this while resting on your own personal EZ-Deck.

Rest easy with four 12-volt security lights on each corner of your coach.

12-volt fuse panel. Just push the reset button and you're back in business. STANDARD for 1990!!

The San-T-Flush system will keep your holding tanks flushed and smelling fresh. Attaching a garden hose to the inlet allows the tanks to be flushed and pumped simultaneously.

World renowned artist Roy Kerswill is providing Teton Homes with his "Headin' for the Green" portrait of the West the way it was. This painting will be matted and framed to match the interior of your coach. Comes standard with the optional Teton decorator display kit.

Never be without your favorite TV programs, with this A&E Travelsat. The TV and VCR are also popular options in a Teton.

Enclosed in a fire resistant metal container, a handy gas BBQ grill is available in most 5th wheel models.

Just like the floor in the Boston Garden, Teton is offering parquet in the kitchen to further beautify your new home.
