### Teton's 10-Year Limited Warranty on the Ultrastructure

Teton Homes offers you their 10-year limited warranty on the Ultrastructure of a 1993 Teton Fifth Wheel. In addition to various other 10-year warranties included on their product.

This warranty is subject to the individual limitations of the specific suppliers involved, and is subject to their rules and guidelines regarding their products. Teton provides the warranty on the Ultrastructure itself.

Items included in this 10-year warranty package are:

1. The Ultrastructure framework by Teton Homes
2. The EPDM rubber roof by RPI
3. Exterior fiberglass siding by Filon
4. The 7/8" structurwood floor by Weyerhaeuser
5. The 3/8" structurwood roof decking by Weyerhaeuser

Teton Homes warrants its Ultrastructural framework, a unique blend of wood and steel for 10 years. The Ultrastructure includes the 12" I-beam frame and the wood framing in the sidewalls and the roof. If, during the ownership of the original buyer, any part of the Ultrastructure fails to perform properly because of faulty workmanship by Teton Homes, it will be repaired without charge for either parts or labor if the proper warranty claim procedures are followed. All other items are covered under the standard Teton 1-year limited warranty unless otherwise indicated. See your owner's manual and warranty booklets for further details.
