

TWILIGHT DECOR

Two night stands and a full-length, mirrored wardrobe are shown above. Underbed storage, and special makeup vanity (shown upper right) highlight the bedroom area. Even the bathroom has spacious cabinets and drawers, along with garden tub and shower.

The "Prestige" is beautifully appointed with features you'd never think possible in 'affordable' models. Teton Homes® has time-tested and value-proven its approach to design and manufacturing the best in luxury fifth wheel products.

Today's "Prestige" is final evidence that Teton® will continue to lead in offering the greatest selection and quality that can be found anywhere.

As with the "Royal" and "Grand", the "Prestige" offers double and triple slide-outs, vacu-bond hard wall sidewalls, vented attic, 7" roof with R-25 insulation factor, ducted air conditioning and dual ducted furnaces with 62,000 BTU of heat on all 35', 37' and 40' models. "Prestige" is the lightest weight fifth wheel Teton® has produced in the last 10 years!
