The Royal 102" wide body maximizes the livability in this living room. Featured is the slide-out entertainment center showing the standard 120 volt radio/stereo with a 6-disk CD changer. Leaded glass doors enclose the lighted cabinet with clear adjustable shelves. **The TV cabinet has retractable enclosure doors and a slide-out shelf which swivels both directions for easy viewing.**

Royal's mini-suite is fit for a King and his Queen. **The open design will let you move about freely.** The spacious mirrored wardrobe closet allows you enough room for two entire wardrobes. To the right (not visible) there are two shirt closets and an enclosed TV cabinet equipped with a 12 volt outlet, a cable hook-up, and a phone jack next to the bed. A privacy bi-fold curtain separates the bathroom and bedroom. There is extra storage under the queen size bed that rises from the end assisted by 2 gas struts (not available in the master suite models).

Our beautiful raised oak frame mirror wall with a solid oak door separates the kitchen and bathroom.

Featured in our new bath area is the garden tub/shower (optional garden shower), now has a new graphic design on the door and side panel. Overhead is the standard frosted skylight.
