

Teton's striking graphics are shown in royal blue, bluegray and silver on this 38' Newcastle Expedition XT3

Expedition

The Latest in Teton's®
Lightweight Models

Expedition is backed by a 3 year limited ultrastructure warranty.

Located in its own private room is a Thetford Starlight toilet with hand-held spray wand for easy cleaning. (Other Teton's feature a vitreous china toilet with residential seat and spray wand). Step lights add safety to bathroom stairs.

Slideout bedrooms combine storage, beauty, and comfort. Amenities include a queen bed with designer spread and matching window treatments, a six-drawer dresser with file drawers, a sliding mirror that conceals the window, and a vanity/computer desk with phone jack and modem hook-up. In all Teton' products, additional phone jacks are located in the living room.

Expedition's optional computer desk/entertainment center is functional and beautiful. Here, a 27" optional TV rests on a pull-out swivel TV shelf. Behind the decorative glass doors are a Sony residential AM/FM stereo receiver (upgraded with a Bose sound system) and a five disk CD changer. The optional computer desk with windows features a pull out work top computer keyboard tray, file drawers and ample room for computer equipment. All this is built into a space-adding slideout. The round dining table comes with four chairs and an 18" leaf; the coffee table is optional.

Making America More Enjoyable

At right is a behind the scenes look at the beautifully designed and fully-equipped kitchen shown below. *You won't find storage like this anywhere.* Most drawers are 24" deep; all feature Teton's ultra-smooth operating guides.

Abundant counter space is just one of many amenities in Expedition kitchens. Notice the convenient single lever faucet and lovely, low-maintenance Corian counters with decorative color inlays.

Irish Linen decor highlights this 38' Newcastle XT3 Expedition.
