

Royal The Ultimate in Luxury

This is the ultimate home on wheels. Completely luxurious, wonderfully livable. A hidden kitchen slideout expands living space without looking like a separate room. Cathedral-style cabinet doors with hidden hinges are hand crafted from the *finest select northern red oak for uniform color*. A convenient cook top with drawers is shown in place of the standard range and oven; the convection oven and dishwasher are optional. The beautiful new optional 'ceiling of light' keeps everything bright.

Step up through a 27" aisle with a unique arched door into Royal's new exclusive patent pending *LevelOne Suite* a luxury bedroom and master bath all on one level.

This optional storage-filled island adds work space with spot lights above on a dimmer switch and features a hidden wastebasket. Solid surface counter tops are standard throughout.
