

Experience

Making America More Enjoyable

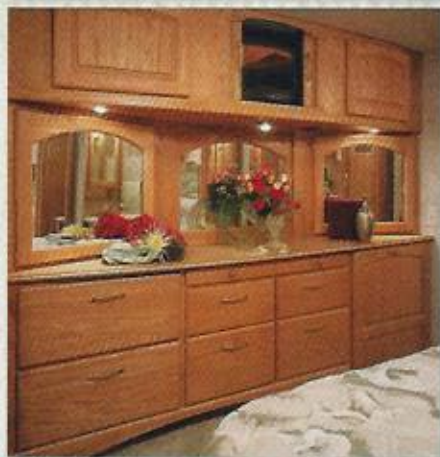

39' Frontier XT3 Experience with Emerald Isle decor.

Solid surface counter tops (in both kitchen and bath) with molded sinks are beautiful, durable and easy to clean.

Teton® Experience brings you home in style. You'll appreciate our 8' ceilings (6'7" in slideouts) and 78" entry doors. Like all Teton homes, Experience boasts the industry's highest grade custom oak cabinetry for uniform color and tremendous eye appeal. The kitchen (above) has an optional 'ceiling of light' fluorescent light box to keep everything bright and an optional island for extra work and storage space. An optional dishwasher is shown.

Teton® storage is outstanding! Most drawers are 24" deep; all feature Teton's ultra smooth operating guides and solid construction.

The entertainment center (top), is shown with an optional electric fire-place (a computer work station with pull-out keyboard tray is standard). A full-wall dresser has swing-out mirrors that conceal shelving, a pull-out makeup drawer, mood night lighting under the arched toe space, a pull-out hamper and six deep drawers. All floor plans combine maximum living space with superior comfort and convenience.

Irish linen decor highlights this Newcastle XT3 Experience.
