

Three In  
**One Floor Plans**

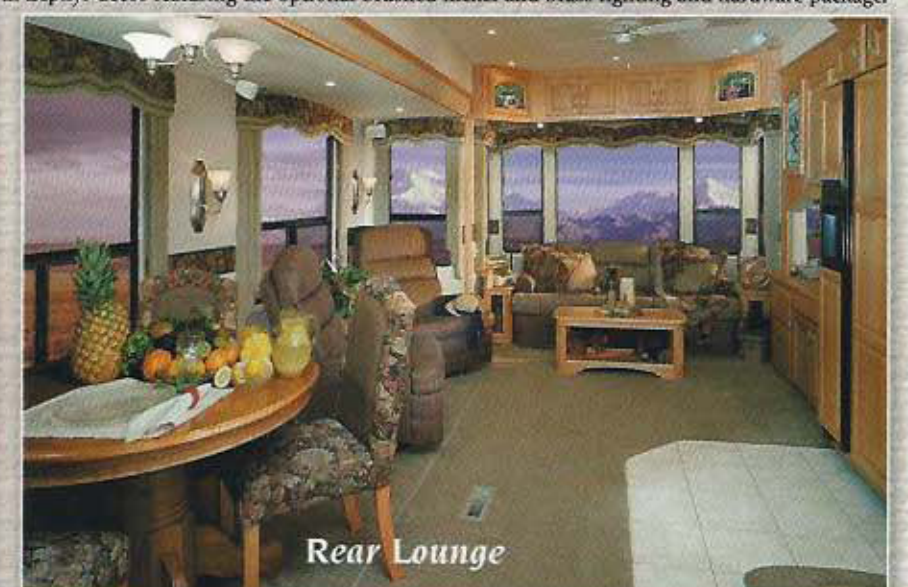

Rear Dining Room

It's no wonder Teton is the number one choice of full time RVers! It's the most luxurious home available and is renowned for outstanding quality. Teton offers flexibility you never thought possible in an RV with *Three in One Floorplans* that let you rearrange your furniture to accommodate the view, your lifestyle or guests. Combine this convenience with dazzling new decors (see page 13), solid-wood cabinet doors (some with leaded cut-glass inlays), a sound-deadening fabric ceiling with a ceiling fan, mega-plush 65-ounce carpeting, large windows with beautiful valances and side accents. Standard in all Royal models are upgraded fabrics, which includes leather sofa arms and skirt, and leather inlays in dining chairs (shown are the optional leather recliners). Royal's desk is computer-sized with a phone hook-up and pull-out keyboard tray/storage drawer.

Rear Lounge

**Royal**  
Unsurpassed Luxury

This magnificent *LevelOne master bedroom/bathroom suite* is all on the same level for complete convenience and extra safety. Generous 6'7" of headroom throughout the suite adds residential appeal.

Bathrooms have exactly what you'd expect in a fine home including a residential shower, china toilet, and a solid-surface integrated sink and backsplash. Of course, there's linen storage in the bathroom and abundant storage for clothing and other essentials in the bedroom.

In addition to a full-length mirrored closet, Royal's full-wall dresser comprises a choice of shirt closets or drawers and shelves, an alcove with tri-fold mirrors, a multi-purpose drawer for use as vanity or desk storage, an entertainment center, and a handy pull-out hamper.

The small photos above show optional shirt closets in place of the standard six-drawer dresser arrangement. The left closet (next to front mirrored wardrobe) has optional drawers and shelves, the right closet does not. Beneath the closets are a pull-out hamper and six recessed drawers. In the center make-up alcove, a sliding mirror conceals a window. Above, a sleek tambour door hides an optional 13" TV. See page 7 for more bedroom details

39' Frontier Royal, with Zephyr decor featuring the optional brushed nickel and brass lighting and hardware package.
