

Teton® - Your Home for All Seasons

Whether you're partial to snow skiing in the Rockies or deep sea fishing off the Keys, Teton's Arctic insulation package keeps you comfortable 365 days a year in temperatures that range from single to triple digits! Included are self-regulating heat tapes on plumbing lines and dump valves located within the frame, dual-power thermostatically-controlled heat pads on the bottom of in-frame tanks, dual-pane windows, and the highest insulation R-ratings in the

industry. Our optional Arctic package includes insulated plumbing lines. Optional are dual-pane insulated glass windows (standard in Royal) and a second 31,000 BTU/H furnace (standard in Royal) to replace the standard 42,000 BTU/H model. Find a snowmobile trail in Vermont or hit the golf courses in Arizona. It's your Teton and it's your leisure time. *Enjoy it your way!*

Experience Affordable Teton® Luxury

This Experience 36' Laramie model features tasteful silver, gray, and dark blue graphics on a white exterior. Baggage doors are 30" tall and conceal extra-large storage compartments.

The Experience is our lightest and most affordable home, and it's pure Teton! It's built with outstanding workmanship for superior quality and has many amenities you won't find elsewhere.

The Experience entertainment center wall has an optional 27" flat screen TV, computer keyboard pull-out, leaded-glass curio cabinet door, very generous storage and more. Entertain in style with the optional fireplace and relax in comfort while you savor the luxury of owning a Teton.

Take a good look at these photos and you'll see that Experience has the spaciousness, comfort and convenience you expect from a Teton. Outfit your Experience with any floorplan in this brochure, including our Three in One styles. Then simply move in, and enjoy the Teton Experience.

Heating Test: Performed at Dometic's test chamber in LaGrange, Indiana.

Dometic's Engineering manager is quoted "here we see the superior methods of building with the furnace doing an excellent job of heating the coach. At below 0°F temperatures the furnace is still cycling".

36' Laramie Experience with upgraded Sycamore decor.
