

## Teton® – The Name Means Excellence

In 1967, Teton Homes® began building Teton travel trailers. Although the original units didn't look like today's Tetons, they established a firm foundation for the business principles that would take us through 39 years of continuing success.

Over the years, we listened when customers told us they wanted flexibility, storage, luxury, efficiency and reliability so they could make Teton RVs their full-time home. Through nearly four decades, we refined and improved our products into the magnificent homes they are today. We never scrimped on comfort or sacrificed quality. Instead, we satisfied our customers. In return, America's full time RVers have made us their number one choice. When it's time to make your dreams come true, choose the only RV whose name is synonymous with excellence. After all, we don't build just any luxury recreational vehicle; we build Tetons.

This is our second custom order. The quality and workmanship is the best in the industry. It's no wonder Teton is the #1 choice in 5th wheels at Outdoor Resorts.

**Mike and Barb Hall**  
Cathedral City, CA

### The Teton Difference

Teton's chassis design is so unique it's protected by three U.S. patents\*, the most recent one of which was issued on March 1, 2005. This exclusive chassis design allows for Teton's phenomenal Big & Tall Storage. Every 2006 Teton has an incredible 40" tall exterior storage compartment! No other RV manufacturer can use this patented Teton design. That is one of many reasons we're the first choice of full timers.

\*U.S. PATENT NUMBERS 6,343,830, 6,502,894, and 6,860,545.
